Election Results Offer Few Surprises

Assemblyman Bob Wood (R, Greenfield) and Representative Burt L. Talcott (R, Salinas) have done a good job in their respective offices. At least from the outcome of the November 3 election that would seem so.

Both Wood and Talcott easily defeated their opposition.

Wood, who only a year ago was involved in one of the most intense special elections in the State's history, demolished his opposition in the election, which included Oliver Murray of Seaside, and two minor party foes.

Wood totaled 73 percent of the vote against the Seaside city councilman. Unofficial totals gave Wood 39,913 votes to Murray's 15,588. Joan Amader of the American Independent Party received 1,157 votes and Brady Avery of the Peace and Freedom party tallied 1,275.

This was Wood's first attempt at winning a full two-year term in the State Senate after his conquest of former State Senator Fred Farr.

Meanwhile, the other incumbent candidate, Talcott, swept all four counties of the 12th Congressional District against his Democratic challenger, O'Brien Riordan of Aptos and Herb Foster of Santa Cruz, candidate for the Peace and Freedom Party.

Talcott was returned to Congress for the fifth time. He rolled up 65 percent of the vote to easily outdistance his competition. Riordan showed strength in only one of the four counties in the district. In that, Kings, he lost by less than a thousand votes.

In Monterey County, Talcott beat Riordan by 39,168 to 18,096. Foster polled 1,063.

District totals for the election gave Talcott 95,421, Riordan 50,841 and Foster 3,720.

In the statewide elections, the Monterey County voters remained solidly Republican, except for the United States Senator race.

The county went 59 percent to Governor Ronald Reagan. Democratic candidate Jess Unruh was victorious in only one peninsula city--Seaside, which traditionally is Democratic.

In other races, Lieutenant Governor Ed Reinecke received 33,820 votes to 23,083 by Alfred Alquist, the Democrat. James Flournoy, who lost his bid for Secretary of State to Edmund Brown, Jr., totaled 30,245 votes, while Brown received only 26,203.

Incumbent controller, Houston Flournoy received 35,467 votes to 19,822 for Democratic candidate Ronald Cameron.

The most popular candidate for statewide office on the peninsula was Treasurer Ivy Baker Priest. Mrs. Priest's 36,362 votes, or 63 percent, easily defeated her opponent Milton Gordon, who received 19,928.

The closest race was between Evelle Younger and Charles O'Brien in the race for Attorney General. Younger narrowly edged O'Brien as he totaled 29,292 votes to O'Brien's 27,337.

The county's voters also followed a statewide trend and supported Wilson Riles over his boss, Max Rafferty, for Superintendent of Public Instruction. Riles received 31,099 votes to 23,929 for Rafferty.

In the U.S. Senate race, John Tunney, Democratic challenger against incumbent George Murphy, carried the peninsula by a landslide of 55 percent to Murphy's 45 percent.

MPUSD Board Meeting Will Be Monday

The November 16 board meeting of the Monterey Peninsula School District will be held Monday at 8 p.m. at Martin Luther King Junior High School.

In addition to the board, the Superintendent and his staff will be present to discuss matters of interest with parents and any others that may want to attend.

Mrs. Charlie Knight has asked that all Seaside residents turn out to this board meeting to express their views to the board members.

The board meeting in Seaside is being held in accordance with a policy adopted by MPUSD this year to hold meetings regularly in each community to better acquaint both the board members and parents with each other to better solve their mutual problems.

Employment Sets Record

Civilian employment in California totaled 8,127,000 during October--exceeding by 11,000 the previous October record set in 1969--according to preliminary figures issued by the Department of Human Resources Development.

There was a decline of 89,000 from the September total, mainly because of seasonal factors and the strike in the automotive industry.

The number of unemployed in October was 508,000--unchanged from September. The civilian labor force, consisting of the employed and the unemployed seeking work, went down from 8,724,000 in September to 8,635,000 in October.

Although the actual number of unemployed remained the same, the seasonally adjusted unemployment rate rose from 7.1 to 7.2 percent because of the decline in the total labor force in October. A year ago, the adjusted rate was 4.6 percent. The unadjusted rates were 5.9 percent in October, 5.8 percent in September and 3.7 percent in October, 1969.

The principal reductions in employment were recorded in manufacturing (down 53,000) and agriculture (down 52,000). More than half of the reduction in manufacturing occurred in the canning industry, where temporary workers were released as the season tapered off. Other manufacturing groups showing reductions included the aerospace complex and strike-affected motor vehicles and shipbuilding. The reduction in the number of agricultural workers was also seasonal.

Partly offsetting these reductions, there was a 30,000 increase in government employees, stemming mainly from further gains in public education as the fall terms began.

In general, the unemployment level continued to reflect the national slowdown in the economy, affecting particularly the defense and space-related industries, with some secondary effects caused by the auto manufacturing trade dispute. Employment in the aerospace manufacturing complex (aircraft, electrical equipment, ordnance, instruments) was about 473,000 in October, down 83,000 from October, 1969.

Jazz Ensemble Will Play

The Monterey Peninsula College Jazz Ensemble will present its annual fall concert Thursday, November 19, 8:30 p.m. in the new MPC theater.

The 20-member student ensemble will be joined by two small groups, Lo-Fat and Rainbow, also composed of students, against a backdrop of student paintings supplied by MPC art classes.

Two ensemble members will be featured in extended solo performances. Jan Spencer, a student from Bishop, will appear on alto saxophone in an arrangement of Thelonius Monk's "Round Midnight." Bill Armstrong, a trumpet player from Pacific Grove, will perform Harold Arlen's "Come Rain or Come Shine."

The ensemble, directed by music instructor Dan Haerle, performs music which is almost exclusively of a professional level, including arrangements from the libraries of such bands as Stan Kenton and Buddy Rich. Its repertoire very often consists

Enlistees Can Get Job Guarantees

The Chief of Naval Personnel has selected the Monterey Recruiting Station to take part in a new program which guarantees qualified young men a Navy school at the time of enlistment. In the past no such guarantee could be made until the new enlistee had completed recruit training. This new program is a tremendous opportunity for young men to pick their career field before enlisting.

Contact your local recruiter at 431 Webster St., Monterey for all the details.

HONORED – At testimonial dinner held at Holiday Inn recently, Chief Roy V. Gomez (right) was presented plaque honoring his 23 years of service to Seaside Fire Department by Seaside Fire Inspector Charles R. King. Honored guests in attendance included former Chief and Mrs. Bill Pacchetti, Caption and Mrs. Charles Benson and Captain and Mrs. Peter Scardina.

Young Adults For Action Receive Grant

On October 29, the California Council on Criminal Justice (C.C.C.J.) voted unanimously to award a grant to Young Adults for Action. The total budget attached to the application called for $110,795 of which C.C.C.J. is awarding $62,838.

Young Adults for Action is a service organization created in 1965 by Lee Toler. Its initial purpose was to stimulate the Black youth of Seaside to pursue vigorously the education being offered by the many and varied institutions of Monterey County.

In 1966, prodded by deplorable conditions, Young Adults For Action was incorporated as a non-profit organization dedicated to providing that necessary support to those youngsters who find themselves friendless in time of need providing a forum for expression for young people in hopes of stimulating the youth toward achieving through academic pursuit, exposing as many youngsters as possible to various professional and technical fields providing support to the youth who identified a goal but who cannot or does not perceive the realities or obstacles in reaching stated goal and serving as an advocate for youth with the various institutions and agencies.

Lee Toler was assisted in this initial endeavor by a young adult, Trevor Lang. The two individuals began a crusade in Monterey County to secure as many jobs as humanly possible for the young people of Seaside. Employers began to use YAFA rather than the more traditional public and private agencies.

The employment arena brought other problems to the agency that had to be dealt with, the biggest of which was crime among youngsters in the community. The staff was increased the began a concentrated program to: prevent crime as much as possible; support of those individuals who found themselves in trouble with the law and assist with rehabilitation of individuals released from jails and prisons.

In an interview Jimmy Roy, Program Administrator for YAFA, who developed and wrote the proposal, said, "... Young Adults For Action acknowledge the primary function of a police force is to protect the community in which it serves. As part of the criminal justice system, police are in daily contact with both crime and with the public.

"Since Seaside is facing an increase in crime and increase in social unrest and an increase in sensitivity to both, this is the time when police work is perculiarly important, complicated, conspicuous and delicate.

"The way the police perform their function depends to a large extent upon how the public sees them. In other words, which state of mind predominstes whether the police are thought of as protectors or oppressors, as friends or enemies. The attitude of the public toward the police is influenced to a great degree by the manner in which the policeman perform his duties. In short, the personal discretion exercised by a policeman will determine or have an immediate bearing on the peace and safety of the community.

"The fact that there is a rise in the crime rate in Seaside parallels the fact that there is a rise in parolees returning to the area, as well as parolees coming into the area for the first time. This creates a problem.

"In view of the history of race relations in America and the ghetto conditions in which most minority group members live, more apprehension is felt by the parolee and more police activity is directed toward the parolee. No doubt the police are condemned by the very nature of the authority they represent.

"To remedy this situation and change the attitudes of the people toward the police, and help the police do a better job by understanding the myriad of problems of parolees, Young Adults For Action propose to use the follwoing method: (1) To acquaint the police and the parolee with each other's problems and to stimulate action aimed at solving these problems; (2) To stimulate the organization of community advisory committees with at least one parolee who would meet regularly with police officials to discuss problems of conflict between the police and the community; (3) In order to be effective, the parolees would be encouraged to become involved in community matters. It would be necessary to actively organize that portion of the community which has been traditionally 'hard-to-reach'. This would faciliate a continuous and dynamic two-way flow of communication between the police an the community.

"It is felt that such a program using parolees will instill in the participants a feeling of civic pride, dignity an community responsibility."

Roy states that now that YAFA has been funded, they are obligated to expand their operations to a tri-county level which will include San Benito and Santa Cruz Counties. He look forward to an expansion of the Staff and branch offices located in the new areas. Optimistically, Roy says he soon expects YAFA to have offices throughout the State.

Excerpts from the proposal indicate four major categories YAFA will be involved in: Crime Preventions; Penal Involvement; Rehabilitation and Drug Abuse.

YAFA Board of Directors are: Vernon Adams; John Bean; Mary Green; Vivian Holly; Dr. Henry Hutchins; Easton Isadore; Mrs. Charlie Knight; Lancelot McClair; W.D. McKinney; Danny Perkins; Helen Rucker; Elijah Turner; Ethel Ward; Marion Woodie.

Cigarette Taxes Are Distributed

State Controller Houston I. Flournoy has announced the distribution of $4,382,741 to counties and cities as the October apportionment of cigarette tax.

Monterey County received $5,705, $5,705.45. and City of Seaside got $5,454.74. The 58 counties' share was $841,329 and the cities' share totaled $3,541,412.

This distribution represents 30 percent of the revenue deposited in the Cigarette Tax Fund during the month of September 1970, less 30 percent of the total administrative costs.

Other peninsula cities receiving money included:

Pacific Grove, 2,054.69; Monterey, 7,399.87; Sand City, 144.09; Del Rey Oaks, 454.99 and Carmel, 1,600.46.

Patterson's Statement

In a statement hailing the election of Democrat John Tunney for U.S. Senator, Wilson Riles for State Superintendent of Public Instruction and Edmund Brown, Jr. as Secretary of State, Pat Patterson, Monterey County Democratic Central Committeeman, said, "I want to thank

Development Company Will Be Topic of Meeting

An important community meeting sponsored by the Seaside Chamber of Commerce will be held Tuesday, November 17, at 7:30 p.m. in the Seaside Council Chamber in the City Hall.

The topic of the presentation will be "Establishing a Development Company in Seaside."

Pricipal speaker of the meeting will be Frank Mohrhoff, Development Company Assistance Divisions, Small Business Administration.

The program, such as a local development company, is based of the principle that each community bears a major responsibility for its own economic growth and health. It is authorized under the Small Business Investment Act of 1958, as amended.

Under this program, loans are made exclusively to Local Development Companies. The LDC in turn uses this money and private sector monies, along with its own funds to acquire, erect or lease facilities for eligible small businesses they wish to help.

A LDC must be composed primarily of residents of the community. The company is chartered under State corporation laws to operate in a specific area in the State. It may be a profit or non-profit corporation. The LDC must be composed of a broad based representative group of not less than 25 members of shareholders.

The loans the organization makes may only be used for modernization, expansion, construction or purchase of plants (with sites) and/or equipment for projects found to be feasibly sound. These loans are for that sole purpose and cannot be used for working capital or debt repayment. The borrower is the development company--not the small business concern.

The development company program predominantly is a local, self-help program, with the local development company being the innovator. Members are leaders of a community can thus have a vehicle for their personal involvement in an organized effort to build a viable community capable of sustained economic growth. The planning or attraction of sound business projects then become the responsibility of the community at large.

Its financial responsibility is evidenced by the existence of the LDC who will be the legally responsible borrower. The long term financing for the project then is obtained through a partnership decision of the community development corporation, the private financial fraternity and federal sector.

This partnership can be, to a great degree, the key that can unlock the gate leading to economic progress.

School Board Discusses Drug Abuse

Unanimous opinion of members of the Monterey Peninsula Unified School District Board of Education present at the regular meeting November 2 is that use of dangerous drugs by youth is a widespread threat which must be met not by schools alone but by coordinated effort of schools, parents, churches, cities, county, state and federal agencies, private groups, police and probation officials and health authorities.

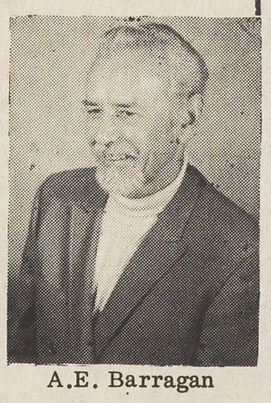
The board authorized the administration to proceed with current plans to expand the DART (Drug Abuse Resistance Team) instruction among all sixth grade classes as soon as enough teachers have had the requisite inservice training and specified that only those teachers who feel competent to handle the program be assigned. The board approved the administrative recommendation that school counselors should refer them to other resources. Valid information about the consequences of drug usage and current data about kinds of drugs illegally available to youth must be part of the instruction, board members agree.

The administration further was authorized to work with Carmel and Pacific Grove Unified School Districts and Monterey Peninsula College personnel to develop Peninsula-wide educational programs and to encourage support from any source for establishment of a drug center open 24-hours, seven days a week.

Publisher's Report

Seaside Ripples

A.E. 'Andy' Barragan, Publisher



A.E. Barragan

It was heartwarming to see that the American voters cannot be stampeded into voting for reactionaries who don't really represent the people. The "FEAR and SMEAR" artists, led by none other than the chief of all smear technicians himself, President Richard Nixon and backstopped by his chief stooge and scare-artist, Vice President Spiro Agnew, could not, scare the California voters into re-electing Senator George Murphy, the sweetheart of the "special interests," or Max Rafferty, quite an expert in the art of smear himself. The voters were able to see through the smokescreen created to hide the real issues and defeated these two representatives of reaction. The same was true throughout the country with only a few exceptions.

The local "FEAR and SMEAR" artists, led by Bernard Dolan, Lou Haddad and Al Lioi are also not going to succeed in their attempt to scare the people of Seaside to follow them down the path of a comical recall attempt. The whole procedure from the very beginning has had the aspects of a comic farce. It would be just that, too, if there weren't such serious consequences involved.

Let's look at some of the childisly concocted charges that this so-called Citizens for Good Government Inc. were able to finally come up with. They charge councilmen Murray and Ross with "making the city council meetings into a three ring circus by their action supporting the Seaside 19 protest marchers and of using their

SOURCE: ECONOMICS DEPARTMENT, BANK OF AMERICA

ON RISE - Housing starts in California surged to a seasonally adjusted annual rate of 214,000 in September, according to the latest figures compiled by Bank of America economists. This compared with a 167,000 rate in August and a rate of 210,000 in September, 1969. During the first nine months of 1970, actual starts totaled about 119,000 units, down from 133,000 for the same period last year. Almost all the decline was in single family units.

Noche Buena School Given Painting

Carmel artist and architect George Downs recently donated a watercolor to the library of Noche Buena School in Seaside. The painting was selected from among those on exhibit at Sunset Center, Carmel, visited by nine third grade children from Noche Buena as a special field trip October 29. It is a landscape of Oregon country.

The selection committee from Mrs. Jessie Geyer's and Mrs. John Gamble's classes were Susan Scott, Michael Lawson, Marcia Matyga, Gene Mitchell, Maurica Callahan, William Welch, Vivian Cristobal, Mary Valdez and Sidney Latham, accompanied on the trip by Elizabeth Dodds, school librarian and Mrs. Margaret McGee, teacher aide.

Downs has offered to come to Noche Buena School to give several lessons in painting to third grade children.

Noche Buena School at 1450 Elm Street, Seaside, has an enrollment of about 335 children in kindergarten and grades 1-3 and also is where the Seaside Children's Center is housed and some preschool classes are held under the state AB-1331 program. The center accommodates 56 preschool children of working parents and the other preschool classes serve 32 youngsters. More than 400 children and their parents will have opportunity to enjoy the painting in the library regularly, but visitors are welcome anytime school is in session.

Noche Buena is one of 22 elementary schools in the Monterey, Peninsula Unified School District.

Class For New Parents Offered

A new class in preparation for parenthood will begin November 18 at King Junior High School in Seaside. This course, offered by the Monterey Adult School and taught by Mrs. Margo Edwards, R.N., will meet Wednesday evenings from 7 to 10 p.m. for eight weeks. Registration fee is $3.00.

The course is designed to prepare couples for their childbirth experience and has proved to be very successful in the past. It will cover such areas as exercises, diet during pregnancy, labor, delivery, care and feeding of the newborn, as well as the important role the father plays.

Registration may be made at the adult office, Monterey High School or Seasdie High School between the hours of 6:30 and 9:30 p.m. Monday through Thursday or at the first class session. For further information telephone Mrs. Edwards at 375-1974.

WARNING SIGN

The Central Mission Trails Heart Association says that a warning sign of heart attack is prolonged oppressive pain or unsual discomfort in the center of the chest, behind the breastbone. Obtain quick medical attention if such a sign occurs.

RESEARCHERS

Since 1949, the American Heart Association, its affiliates and chapters, have invested more than $163 million in research.

Interest Grows In Turkey Hunt

If the volume of inquiries being received by the Department of Fish and Game about the wild turkey season which opens November 21 in Monterey, San Luis Obispo and parts of Kern, Tulare, Mendocino, Trinity and Glenn Counties is any indication, a lot of sportsmen are planning to bag their own gobbler for Thansgiving.

Althugh the success of hunts in San Luis Obispo County the last two years prompted the Fish and Game Commission to expand the fall hunt to new areas and to extend the hunting period from two to nine days, the Department wants to remind sportsmen their quarry is wild, wary and wiley and their chances of bringing home a gobbler for their Thanksgiving table are somewhere between slim and only fair.

For those planning to try their luck and skill, the Department has some advice.

The best wild turkey hunting will be in San Luis Obispo County. However, nearly all of the birds are on private property and it is up to each hunter to contact a landowner and secure permission to hunt on these private lands. The Department cannot provide lists of landowners or maps showing private lands and suggests interested persons make their own arrangements well in advance of opening day.

Small numbers of wild turkeys can be found in Los Padres National Forest in southern Monterey County and the forest is open for the public for hunting. Sportsmen should check in with rangers at guard stations to obtain any necessary fire or camping permits.

Other areas open for the fall turkey hunt include those parts of Tulare and Kern Counties east of the main fork of the Kern River and north of Highway 178 and parts of Mendocino, Trinity and Glenn Counties within Mendocino National Forest.

Although wild turkey populations have become established in these areas through Departments plants, the number of birds is relatively small and hunters trying their luck in these areas should have a standby order for a turkey with their friendly neighborhood grocer.

The November hunt will be for either hens or toms, with a limit of two birds per season.

Lecture Will Defend Nature Of Life

What spiritual awakening has to offer people concerned about drug abuse, pollution and other problems will be discussed in a free public lecture in Monterey at the Monterey County Fairgrounds, on Tuesday, November 17, at 8:00 p.m.

Florence C. Southwell, C.S.B., of Miami, Florida, will speak under the auspices of First Church of Christ, Scientist, Monterey. Her subject is "Awakening to Newness of Life."

Mrs. Southwell will be introduced by Dr. B. Crandall Epps, C.S., First Reader at the Monterey church and Christian Science Minister at Fort Ord.

It is false reasoning about the nature of life that has led *mankind into drug abuse and the other ills from which it* suffers today, the lecture will bring out. Mrs. Southwell will show the connection between awakening to the divine source of life and spiritual healings and will cite several instances to show how such awakening brought freedom from illness and other problems.

The lecturer attended Geroge Washington University and served as assistant manager of a statewide firm in Forida before becoming a Christian Science practitioner. She later became a Christian Science teacher and a member of The Christian Science Board of Lectureship.

From 1966 to 1970 Mrs. Southwell served as a member of the Board of Trustees of The Christian Science Publishing Society. She is currently on extensive lecture tour.

Reseeding Begins

Sportsmen and wildlife biologists have begun work to restore and improve wildlife habitat in the part of Los Padres National Forest swept by fire last month.

The program is a cooperative effort involving the Monterey County Sportsmen's Council, the Department of Fish and Game and the U. S. Forest Service and calls for reseeding of 950 acres of the burned forest area in Monterey County.

Half of the $4,000 cost of six tons of seed is being paid for by funds from fish and game fines collected in Monterey County. The Monterey County Board of Supervisors approved this expenditure on the recommendation of the Sportsmen's Council. The *remaining $2,000 comes from Department of Fish and Game* Funds.

The actual planting is being done by Fish and Game personnel using equipment provided by the DFG and the Forest Service.

The area being reseeded with a mixture of perennial grasses and forage plants is a strip along the boundary of Los Padres National Forest and Hunter Liggett Military Reservation. The strip is 300 feet wide and about 15 miles long.

This reseeding program has a threefold objective.

It will benefit wildlife by providing an area where the newly planted grass will retard the regrowth of dense stands of brush;

It will benefit hunters by providing an avenue of access by vehicles to hunting areas in the national forest and

It will serve as a fire break.

Counselor Is Needed

A position for a "counselor aide" will be available at Monterey Peinsula College November 16, with applications being taken now by Mrs. Judy Pattengale in MPC's business office, Room T-3.

Person applying for the job should have had the equivalent to junior college graduation or two years' experience in a college records office, though other education or experience may be substituted. The ability to type 50 words a minute and a knowledge of basic office machines are also required. Applicants will also be screened for their ability to work closely with students and their knowledge of college requirements for transfer and graduation.

Starting salary is $516 per month and there are many fringe benefits.

MPC is an equal opportunity employer.

It takes a lot of energy to serve Californians without "brownouts"

It takes more energy every day to support the quality of life we all enjoy. To meet this ever-increasing demand without "brownouts" or "blackouts" we must continue building new power plants and service facilities. We're investing $400 million in construction this year to do just that.

Nowadays even more energy is needed to help protect our environment—running such things as sewage and waste treatment plants, air pollution abatement systems, recycling processes and rapid transit. Further development of pollution reduction methods as time goes on will rely on this energy.

Clean, dependable natural gas and electricity are as essential for modern living comfort in a desirable environment as they are for jobs and a prosperous economy. We take pride in providing Californians that energy reliably, economically and with minimal intrusion on the environment.

Minority Students Make Grade

Four years ago this month, the Berkeley campus of the University of California initiated a modest effort to lower the barriers to higher education for poor, mostly minority, students.

Beginning with 150 students and a budget of $180,000 in the fall of 1966, this campus-wide enterprise today involves 2,000 students and an annual outlay in excess of $5 million.

The gains are believed to make the Bekeley program the largest of its kind for any American campus.

The two-pronged project now includes:

–1,350 students enrolled in the Educational Opportunity Program, with a 1970-71 budget of $3.1 million.

–600 students seeking advanced degrees through the Graduate Minority Program, which has a current budget slightly more than $2 million. Many of the graduate students originally were in EOP.

Since the inception of the two programs, average annual stipends per student have risen from an average of $1,600 to $2,100 (a hike of 31 percent) in the Educational Opportunity Program and from $2,800 to $3,300 (17 percent) in the Graduate Minority Program. The increments reflect inflationary pressures and a growing success in recruiting students from low-income families.

EOP and GMP are financed by a combination of registration fee revenues, funds from the Board of Regents, donations, and federal monies. In addition, the graduate program receives significant portions of Berkeley's Federal and endowed fellorships. No State funds have as yet been appropriated for either program.

This year the U.S. Department of Health, Education and Welfare made a supplemental grant of $90,000 to EOP to underwrite a special program designed to develop skills in mathematics for students who did not have access to prior courses providing the background necessary for University work in mathematics and science. The grant, which will help support 200 students, provides for curriculum development and tutorial and research assistance.

In surveying development of the programs, Robert Tealer, director of EOP, and Dr. Sanford Elberg, Dean of the Graduate Division, note the following highlights:

–170 students have already graduated under the auspices of EOP, and 50 students have completed advanced degrees under GMP.

–year-by-year studies show that both EOP and GMP students maintain grade-point averages roughly equivalent to other students in each class and that drop-out rates are not significantly different.

–composition of the EOP "student body" is 53 percent black, 24 percent Mexican-American, 11 percent Oriental, 5 percent white, 4 percent American-Indian, and 3 percent "other".

–for the GMP, the breakdown is 70 percent black, 29 percent Mexican-American, and 1 percent "other."

The University system is asking the State Legislature to appropriate $1.5 million for EOP in 1970-72 in order to offset anticipated reductions in Federal and other funds and to maintain the program's growth.

Test Dates Are Announced

Test dates for competitive summer jobs in Federal agencies have been announced by the U.S. Civil Service Commission.

The Commission urges all candidates to apply early to receive maximum consideration and reminds applicants that the number of jobs available will be relatively small in proportion to the number of competitors.

Nationwide, approximately 19,000 jobs are filled through the competitive exam each year--some 3,000 positions at grades GS-3 and 4 in which a student's educational background is related directly to the jobs being filled, some 5,000 clerk and carrier jobs in the postal service and about 11,000 clerical jobs in such fields as typist, stenographer, clerk and office machine operator.

Applicants rated eligible in 1970 need not take the written test again unless they wish to improve their scores. They will automatically receive a special form by December 1 to update their qualifications and indicate their availability for employment in 1971.

Again this year, there is a provision for students with at least 2 years of college to qualify for summer employment on the basis of outstanding scholastic achievement without taking the written test, contained in Announcement No. 414, Summer Jobs in Federal Agencies, which may be obtained from Job Information Centers in any Area Office of the Commission, any major post offices, most college placement offices or from the U.S. Civil Service Commission, Washington, D.C. 20415.

This Will Be Gestalt Weekend

A Gestalt "weekend," with Alexis Johnson and Carole Levine as workshop leaders, will be conducted at Monterey Peninsula College Saturday, November 14, and Sunday, November 15.

Sessions will be held in MPC's business conference room from 10 a.m. to 10 p.m. Saturday and 9 a.m. to noon Sunday. A registation fee of $10 is payable in advance in the college community services office in the administration building on campus.

Johnson and Miss Levine are both Gestalt specialists in residence at Esalen Institute, Big Sur. Both are trained in current techniques of Gestalt, bioenergetics and meditation and both draw on years of experience in training sessions with the late Fritz Perls, Bill Schutz, John Heider and Seymour Carter.

They explain the aim of Gestalt as "to increase a person's awareness of the instant moment and to further, thereby, his personality integration." Emphasis is placed on helping a participant to explore his dreams, expectations, gestures, voice and other aspects of personal functioning.

Storm Drain Construction Is Finished

Supervisor Warren Church has announced that work has been completed on the two storm drain systems in Castroville.

The contract, involving two drainage systems north of highway 156, was awarded to Granite Construction Company on August 25, 1970 and completed on October 28.

The work in general consisted of constructing 6,300 feet of storm drain and appurtenances on portions of the following streets: Salinas, Pomber, Pajaro, Geil, Union, Rico, Merritt, McDougall, Crane, Preston, Seymour and Haight. Its cost was about $106,000 and it was financed jointly by the Federal Department of Housing and Urban Development, County Service Area 14 and the Monterey County Road Department.

Your Social Security

By Raymond MacDonald

Q. Both my husband and I work. We have two young children. Would they be entitled to Social Security benefits if something happened to me now?

A. Yes, they probably would. Children may become eligible for benefits when either parent dies, or when either parent becomes entitled to retirement or disability benefits, if the parent has worked long enough under Social Security. The Social Security program recognizes the need for a family to remain together and for children to complete their education. It has made this possible by providing benefits for dependents.

Q. I started my own business at home after a recent illness forced me to quit my job with a jewelry manfacturing company. I know that self-employed persons are responsible for paying their own Social Security contributions, but I don't know just how or when to go about it. Can you help me out?

A. Keep April 15th in mind, because that is the deadline for filing your Federal income tax return, and your Social Security report of income from self-employment is a part of it. You need Internal Revenue Form 1040, and Schedules C, SE, and T. These should be filled out after any year in which you have net earnings of $400 or more from Self-Employment. You can get copies of the forms and instructions for completing them from any Internal Revenue Service office.

(Mail your questions to Social Security, c/o Post News-Sentinel, Seaside or phone Social Security office 373-3351)

Seaside Ripples

continued from p. 1

votes to repay political debts." But Mayor Haddad is the one who caused all of the problems at the council meetings by refusing to abide by the decisions of the majority and walking out when things didn't go his way. It is Mayor Haddad who baits every witness who doesn't agree with his position on any given subject and subjects them to ridicule whenever he doesn't want them to present a view other than the one he espouses.

Is it then a "three ring circus" when the majority of the council members vote to allow certain subjects to be heard, to allow ordinary citizens the right to speak before their elected council? Is it "repaying political debts" when the majority of the council members vote to stop Mayor Haddad from trying to go ahead with an ill-advised real estate deal in which the citizens of Seaside stood to gain absolutely nothing?

If it is political debts that have to be paid, it is Haddad who owes them and he isn't aboe to produce on his debts by going ahead with the Laguna Grande project, which the majority of the citizens in the community opposed. Under the old Laguna Grande proposal, the City was going to purchase the old Legion Hall and now it seems that it might not go through because Haddad can't produce. So what do some of the leaders of the legion do. They want to recall the majority of the council because Haddad can't produce. The fact that H and H Supply Company and the Armstrong Paper Company would be eliminated by the redevelopment of Laguna Grande together with the many jobs that these two large firms generate is of no concern to those who would put the profit from a real estate deal ahead of the needs of the community.

The absurdity of the rest of the charges against Murray and Ross hardly need mention in a report of this type since they are so meaningless. It would seem from all of the hollering that Dolan and his fellow conspirators have been doing at the council meetings that they would have come up with some substantial charges instead of meaningless generalities.

For example, Dolan and company "accuse" councilman Murray of "conducting a personal vendetta gainst the mayor and of being seen speaking as though in a confidential manner with the defendants in the Seaside 19 case. What kind of a crime is that supposed to be. Secret manner, my foot. How secret could it be if everyone in the room saw it? And what if it was secret? Are these people already criminals? Even if they are criminals, which they aren't, can't anybody speak to them? What does "in a secret manner" mean anyway?

The above charge typifies the kind of "misconduct" that this conspiracy for a recall election wants us to buy to remove four duly-elected representatives, who are truly trying to represent the majority thinking of the community of Seaside. This conspiracy wants us to turn back the clock and put into office again those who would represent the special interests as against the best interests of the people. Don't let them do it. Just as the voters on November 3 rejected the "Fear and Smear" techniques of Nixon and Agnew, the voters of Seaside will refuse to have their city dragged down in the mud of such a dirty campaign. The charges are frivolous and capricious and are a smokescreen to return to office again those who would do the bidding of a small group in our city.

Patterson's

cont. from pg. 1

the voters of Seaside for helping to elect these three fine men to office. The legislature in Sacramento is again in the good hands of a Democratic majority in this year of reapportionment. Governor Reagan was unsuccessful in his attempt to purge those Senators and Assemblymen who opposed his ill-fated tax bill. We can expect further Democratic victories in the 1972 elections from the trend shown in last week's election."

Who Cares

By Mel Vercoe

As elections go, the recent election was fairly standard. Really good, dedicated, sincere and capable candidates were about as plantiful as volunteers at a cliff jumping contest. With one or two exceptions, where the lesser of two evils stood out a little more clearly, a voter could vote just about as intelligently with his eyes shut as with them open. If the 1972 election doesn't find us with a choice of someone besides Richard and Spiro and Hubert again and Muskie, I'm going to be seasick.

The selection of John Tunney to replace Technicolor's consultant, George Murphy, in the Senate will probably prove more important to more people and more things in years to come than any other result of the election. Although Tunney was almost in the same league with Adam Clayton Powell when it came to attending Congressional sessions--being sixth from worst out of roughly 450 Congressmen--he is outspoken in his opposition to continuation of the Vietnam war, whereas Murphy had nothing to offer except "mothers and apple pie" administration-directed pro-war platitudes that nobody had believed since about 1963.

But even more important to the lives of millions of people (and to many countries) in the western hemisphere was the CIA goof-up in Chile, a long stretched-out country of about nine million people in South America, where a pro-Marxist with Red Chinese sympathies was recently elected to a six year term as President. President Allende was sworn in a few days ago and makes no bones about shifting policies away from the capitalistic system we find works so perfectly here in the U.S.

The big rub will come if and when he comes up with something that will work well and at the same time better the lot of the millions of hopelessly poverty stricken peasants in his country because much of Central and South America exists under conditions that tend to oppress the "have-nots" and perpetuate the "haves."

Chile is the first nation in this himisphere to adopt such a program under such a President and if it should set an example of success, the governments of other countries, along with the United Fruit Company and the Central Intelligence Agency will have their hands full trying to hold the idea back out of sight.

If the next ten years finds about half of our Central and South American neighbors adopting either socialist or all-out Marxist systems, it will be because of two things--the door was pried open when the CIA wasn't looking in Chile and because conditions are ripe for such a change--conditions that are getting riper and riper in a lot of places--conditions that might have been prevented or alleviated if somebody had figured out a way to make money on such a peaceful program.

Test For Diabetes

If you are overweight, over 45 or if people in your family have had diabetes, you have good reason to have a free diabetes test. But, diabetes can strike anyone, at any age.

Diabetes is the fifth major cause in the United States of death by disease; the second major cause of blindness and heart attacks are two and a half times greater in diabetics than non-diabetics.

There are some 2,800,000 reported cases of diabetes in the country, today and it is estimated there are an additional 1,600,000 people afflicted by the disease who do not know it.

During Diabetes Week, November 15-21, the Nothern California Pharmaceutical Association member pharmacies are joining with the Diabetes Association to help uncover the "hidden diabetics" by making free diabetes test kits available to the public.

The kits are provided by the Northern California Diabetes Association and its local chapters and units.

Jazz Ensemble

cont. from pg. 1

of a blend of both jazz and rock elements today which is very exciting and contributes to the interest of both types of music."

Tickets for the concert, at 75 cents for students and $1 for general admission, may be purchased from members of the ensemble, in the Creative Arts Division office or the community services office on campus, or at the door.

Custodian Is Appointed

Sandy Rosenberg, head custodian at Ione Olson School in Marina and a past -president of the Monterey Chapter 93, California School Employees Association, has been appointed to the state merit system committe according to Monterey Peninsula Unified School District Superintendent Allan J. Petersdorf.

Rosenberg has been with MPUSD since 1961, assigned to Monterey High School, Marshall School at Fort Ord, Hilltop School in New Monterey and now at Olson in Marina. He became a head custodian in 1965. He is a retired M-Sgt. U.S. Army

He heads the classified employees committee for MPUSD staff participation in the American Red Cross blood bank and was instrumental in getting this program established and recruiting a joint chairmanship and participation by the Monterey Bay Teachers Association.

Enlists in Marines

Richard E. Wootan has enlisted in the United States Marine Corps for a four year period and is currently undergoing recruit training at the Marine Corps Recruit Depot, San Diego.

Pvt. Wootan was qualified to enlist under the "Aviation Guarantee" program and will be assigned to a technical school upon completion of his basic training.

Richard is the grandson of Mr. and Mrs. James E. Wootan of Seaside and was last employed at Denny's Restaurant on Fremont Avenue.

Diet Is Important

The American Heart Association recently stated that among 500,000 annual victims of heart attack there are many who are succumbing not to a disease of the moment, but to a susceptibility which begins in their teen years and earlier.

Because the Association is convinced that many teenagers are establishing food habits today which may claim their lives prematurely thirty years from now, it is offering a folder called "Healthy Eating for Teenagers" prepared by Frederick J. Stare, M.D. and Johanna Dwyer, D. SC., of the Department of Nutrition, Harvard School of Public Health.

CHILDREN AT PLAY - "A Swedish Summer", Explorama travel film, which includes many scenes with Scandinavian children such as above, will be shown at 8:15 p.m. Thursday and Friday, November 12 and 13, at Carmel's Sunset Auditorium. Reserve seat tickets are available in advance at Abinante Musci Store in Monterey and Julia Marlowe shop in carmel. Tickets will also be available at door.

Sales in California Decrease

The physical volume of goods distributed in California during the second quarter of 1970 declined from the previous quarter, despite an increase in taxable transactions. In terms of 1969 dollars, sales were down about two percent.

This was reported recently by Chairman George R. Reilly of the State Board of Equalization on releasing a report, Trade Outlets and Taxable Retail Sales in California.

Transactions subject to sales tax reached a second-quarter peak of $10.9 million and surpassed the year-earlier period by 2.7 percent. This was the smallest relative advance since the second quarter of 1967.

"An increase of approximately 5 percent in the Consumer Price Index indicates that higher prices more than accounted for all the monetary growth in self-assessed taxable transactions," Reilly said.

Sales and use tax collections in the second quarter of 1970 totaled $445,377,000, with figures for local sales and use taxes making a grand total of $559,421,000.

Estimates of nontaxable transactions for the second quarter amounted to $1,840,000 in food for home consumption; $145,000,000 for prescription medicines and $763,400,000 for the 2.25 billion gallons of gasoline and liquified petroleum gas (LPG) for highway use.

Counties outside the State's major metropolitan areas increased their share of statewide taxable transactions. A comparison of second-quarter sales with those of the prior year indicated the following percentage gains for each area grouping: Los Angeles and Orange, 2.2 percent; San Francisco, Bay area, 1.8 percent; and the 47 remaining counties, 4.1 percent. Thirty-nine of the counties posted gains over the level of the comparable quarter of 1969.

"The second quarter sales of durable goods dropped approximately two percent below the comparable period of a year ago. A decline of about one percent also was noted in the preceding quarter. The last time durable sales suffered year to year contractions in the overall level of sales was in the first and second quarters of the 1967 mini-recession," Reilly said.

Grooving Around The Peninsula

with Betty Mann

Hi! There Fellow Peninsulans:

Well, the election is over. I'm happy two of my candidates won--Tunney and Riles. So if everyone isn't happy about some of our elected candidates it is too bad. (smile)

It really was a pathetic sight to see our President of the USA lambasting and name-calling like a common run of the mill politician. I forgot he was our president for awhile and my mind flashed back to his old days when he ran for governor of California and made the same boo boo the time when he very ungallantly conceded to Governor Brown. I see that he still has not changed. Well, anyway, that's our Pres. We must respect him and his office.

Citizens of Seaside, we are being faced with a similar problem that we have just witnessed in this past election--name-calling, fear mongering and all of the same uncouth tactics that were practiced by the Republican party, which strangely enough helped them lose most of the votes of the people, who recognized the facts and issues and refused to be swayed. Mr. Dolan is trying to scare the people of Seaside with the same tactics, so let us recognize this and ignore a petition for a recall election. Mr. Dolan stated "that the people of Seaside gave Mr. Haddad the most votes so "his doctrines are desired by the people"; but it seems that Mr. Dolan has forgotten that the other council members received enough votes from the citizens of Seaside to place them into office perhaps to keep our politically aggressive Mayor in line. They are doing a very excellent job of this (smile). Before Seaside's recent election for city council, each council member stated his opposition to the old council and its performance, each council member stated his intentions to the public, so there is no reason now to pretend and say that we the people were unaware of what the new council had outlined. Remember, it was all over the local news media that the people were sick and tired of Seaside's three man ruling power on the council; thus the ousting of Houser and Schmidt in the last election.

So now Mr. Dolan states that everyone is laughing at the three ring curcus in Seaside; I guess so. The Mayor refuses to accept the dignity and judgement of his new council and is acting like a spoiled brat about it, instead of a sophisticated Mayor. Yes I agree! All of Monterey, Carmel, Pebble Beach and the rest of the Peninsula are laughing at Seaside and its council.

Mayor Haddad bring the thought to mind of a King without a kingdom. I can imagine the frustration that he must be going through, of not being able to dominate, and dictate to the new council (tch, tch!)

To the citizens of Seaside: you have voted the new council into office as a means of getting rid of Mayor Haddad's puppet council; now surely you are not going to backtrack and permit a portion of Mayor Haddad's reinforcement group to sway you back into having a recall election. The people voted the new council into office by a square and fair majority vote; if there were any doubts or discretions, the recount of votes cleared all minds of such. The mayor is now unhappy, as we knew from the beginning that he would be with the new council, so now he very indiscretely produces a few of his supporters to rouse up the citizens of Seaside for a recall election. How utterly disgusting! Wouldn't it be funny if the same council was voted back into office! Then the people of Seaside should demand that the Mayor pay for the expenses of a recall election. Right on, brother. (Smile)

If the citizens of Seaside should stand by and allow a recall election and vote Haddad's puppeteer council back into office, we adults, citizens and taxpayers should hang our heads in shame for tolerating a dictatorship to reign over the people of Seaside. We are the ones who will be laughted at by the upper scions of society. It seems absurd to think of a recall election; here we have the same council that we had prior, with the exception of two people. We have the same minds and knowledge of government laws that we had before. Do you think that the old members of the council with their years of experience would allow two members of the council to upset and degrade the council anyway? (Utilize your smarts, folks, and recognize the real issue.)

You know it brings a chuckle when I read in the news media that Mr. Dolan said that the new council members conduct secret and clandestine meetings before the council meetings without Mayor Haddad's knowledge. Well, 'lookee" here, who's griping now. Didn't Haddad, along with his two old council members, do just that! Heh heh! (You know it takes one of something to recognize another one of the same kind. smile) If you were ever in doubt of the secret meetings, you should have sat in on one of the council meetings, it was so very cut and dried amongst Haddad and his two constituents, while the other two--Ross and Murray--sat with their mouths agape at some of these clandestine shindigs of the Mayor and his two councilmen.

The first inkling to the public of the "PIT" being swapped, baby, was well into the advance

Children's Theater To Perform

A unique peninsula organization, the Children's Experimental Theatre of Carmel, will be singled out for special attention this weekend, November 13 and 14. They have been invited to present two of their current tour productions to the Convention of the American Educational Theatre Association in Santa Cruz.

For over a decade the Children's Experimental Theatre has presented traveling plays for children and by children and has given 60 to 90 performances a year in Monterey County schools. They will appear for teachers of theatre from colleges, universities, high schools and community theatres at the annual regional meeting at the Holiday Inn in Santa Cruz.

The Friday evening production, Little Red Riding Hood, will begin a discussion on the use of fairy tales and folk tales as vehicles for serious value teaching.

The youngsters in the cast of Little Red Riding Hood will be:

Sari Scanlon as Little Red Riding Hood; James Shefik as The Cat; Jane Stone as Mother; Chris Page as The Woodsman; Eric Jennings as The Wolf; Kathy Burgess as Grandmother.

On Saturday afternoon the Children's Experimental Theatre will take Dead Man's Mill, the current Fall tour, sponsored by the Junior League of Monterey Peninsula to Santa Cruz as a working model of the teaching of history and historical period through theatre.

The young performers will include:

Cathy Thaler as Desdemona Fancher; Mark Shuler as Slimon Winklecutter; Stephen Page as Col. Jared Starns; Lisa McCusker as Violet Winklecutter; Peri Shefik as Miss Sophronia Starns.

The plays were written and directed by Marcia Gambrell Hovick, costumed by Loel Shuler, mounted and lit by William Lewis.

Orientation Will Be Held

The Volunteer Auxiliary of General Hospital will hold an orientation today (Thursday) for adults wishing to contribute some of their time for the benefit of others. Meeting will begin at 10 a.m. in the Conference room of the hospital. Coffee and donuts will be served.

A member of the Auxiliary will be in the main lobby of the hospital to show the way to the Conference room.

Talks by Mr. Ray Grove, Hospital Administrator and Dr. Carl Leonard, Medical Director will be on the agenda for the first session. A tour of the hospital is scheduled to follow the meeting.

Training session have been divided into two parts to enable Staff to more fully cover the areas of necessary information. The Second session will be held tomorrow, at 10 a.m. in the In-Service Training Building.

Mrs. Elizabeth Greenfield, Director of Nursing and Mrs. Betty Dannenfelser, In-Service Training Director will teach nursing techniques Volunteers should know in order to work in patient care areas.

Road To Be Repaired

The award of four contracts for state highway projects in the southern coastal counties of Monterey and Santa Barbara has been announced by James A. Moe, State Director of Public Works.

The largest -- a contract awarded to C.I, Moseman Construction Co. of Fresno -- was for construction of a Federal Aid Secondary County Route in Monterey County, in the amount of $1,099,011.50.

A 1.6 mile segment of Blanco Road (FAS County Route 1084), about four miles west of Salinas is to be constructed as a two-lane conventional road between Reservation and Cooper Roads. Included in the construction is a concrete box girder bridge across the Salinas River. Also, grading will be done for future expansion of the facility to four lanes.

The new construction will widen existing short curves, improve the horizontal grade as well as shoulders and other deficiencies. It will also correct periodic flooding which has resulted from the low-level bridge.

The west end of the project connects with Reservation Road (FAS County Road 659), which is four lanes divided by a four-foot median.

At the east end of the project, existing Blanco Road -- two lanes -- continues through the City of Salinas and connects to the Salinas-Monterey Highway (State Route 68) and Route 101.

Seminar Was Unique

Mrs. Jun Mink of Seaside participated recently in a unique three-day seminar and workshop on the techniques of translation and interpretation at the Monterey Institute of Foreign Studies. This was the first seminar of its kind to be held in the United States.

The lecturer was Walter Keiser, president of the association Internationale Des Interpretes De Conference in Brussels, Belgium, who lectured on the techniques, processes and attitudes required for consecutive and simultaneous interpretation. Lectures were followed by discussions and demonstrations utilizing the interpretation equipment of the Institue's 200 seat auditorium. This equipment is patterned after that employed at the United Nations and other international gatherings.

The Department of Translation and Interpretation at the Monterey Institute of Foreign studies, set up three years ago by visiting professional interpreters from the United Nations, is one of only two departments in academic institutions in the United States and the only one granting a professional certificate at the graduate level. The recipient of the Institute's first certificate in interpretation is now employed by the United Nations General Assembly.

The Monterey Institute of Foreign Studies is a fully accredited liberal arts college and graduate school offering programs in history, political science, international economics and education as well as languages, linguistics, translation and interpretation thus preparing its students for careers in foreign service, teaching of languages and social sciences and in international communications. President Fulton Freeman, former ambassador to Mexico, participated in the final day of the seminar and workshop.

Movies About Da Vinci Will Be Shown

Two color films dealing with the life and works of Leonardo da Vinci--"Tell Me If Anything Ever Was Done" and "Man of Mystery"--will be shown as the November offering of Monterey Peninsula College's documentary series, "Man and His World."

Both will be screened twice in the MPC Music Hall: tomorrow, at 8p.m., and Sunday, November 15, at 2:30 p.m. for senior citizens and others who prefer to attend during daylight hours.

The title of "Tell Me If Anything Was Done" was taken from a note the universal genius scribbled over and over in his later notebooks between drawings of machines and rough cartoons of his paintings. The film is a sensitive analysis of a perverse man who was impatient with all the things he could do well but left-nevertheless-a legacy to science.

"Man of Mystery" was released internationally in November, 1952, commemorating the 500th anniversary of Leonardo's birth. The film is a visual record of his importance in the world of art.

Tickets to the showing, at $1, will be sold at the door on a "space available" basis.

CSM Bowser Wins Medal

Army Command Sergeant Major Theodore Bowser, Jr., whose parents and wife, Toshike, live in Seaside, recently received the Bronze Star Medal near Long Binh, Vietnam, where he is serving with the 39th Signal Battalion.

CSM Bowser, assigned to the Battalion's Headquarters Company, earned the award for outstandingly meritorious service in Vietnam.

During the same ceremony, he also received the Air Medal for meritorious service while participating in aerial flight in support of ground operations.

He entered the army in October 1958 and was last stationed at Ft. Ord., Calif.

Soul Fiesta Was Success

Information, fun and food attracted over 450 persons to the Monterey County Antipoverty Council's Soul Fiesta, held Saturday, October 31, 11 a.m. to 5 p.m. in the Salinas Knights of Columbus Hall.

"The tremendous turnout and high interest in the films and project information tables will encourage us to plan similar training events for Antipoverty Council members," said OEO Assistant Director Mary Lou Stutzman.

Staff members were available to discuss the Council's current projects: headstart, nutrition, legal aid, family planning, youth, area outreach, housing, operation mainstream and senior citizens.

In addition to free pamphlets and information sheets available at each information table, the Senior Citizens offered "Pies, Pillows and Handicraft."

Families not already full of the combined specialities of the Black and Mexican-American communities could select sweet potatoes or lemon meringue pie at the Senior's table.

The Soul Fiesta menu included: roast pork and bar-bque sauce, mixed greens, southern corn bread, chicken in mole sauce, Spanish rice, pinto beans, salad, corn tortillas and chile salsa.

FORMER NAMES OF YREKA

Former names of Yreka in Siskiyou County were Thompson Dry Diggings and Shasta Butte.

Trains With NATO

Army Private First Class Brian N.L. Lins, of Monterey, recently participated with his unit, the 4th Armored Division, in Deep Express, a three-week NATO field training exercise, in Turkey.

Deep Express, which was concluded October 28, was another of NATO's periodic exercises involving the Ace Mobile Force-land. AMF-L staff is composed of personnel from the U.S., Belgian, British, Canadian, German and Italian Armies.

Pfc. Lins is regularly stationed in Germany as a mechanic with Company B of the division's 504th Supply and Transport Battalion.

His wife Candy, lives in Monterey.

Hearings To Be Held

State Senator Donald L. Grunsky, Senate Finance Committee Chairman, has announced interim hearings November 16 and 17 to study legislation calling for increased compensation and benefits for state employees.

Grunsky said, "Legislation to bring about equity for civil service emloyees commensorate with that of private industry in such important areas as overtime, uniform allowances, night shift differential, unemployment insurance and increased retirement, has always been on a piece meal approach and never successful.

"It is hoped that these hearings, bringing together the representatives of all interested segments will produce a program palatable to the Legislature and state employees." Grunsky said.

Grunsky also indicated that Finance Committe would hold further hearings in January to discuss state employees salary needs.

The November hearings will be held in the State Capitol, Room 5007 beginning at 9:30 a.m.

DEBS - Monterey Peninsula Cotillion League Sub Debs for year 1970 will usher at Monterey Symphony Guild Opera Concert, which will be held at MPC Gym on November 22. They are from left to right: Marietta Hubbard, Melbra Watts, Judy Burden, Lydia Hampton, Rita Burden, Linda Beene, Demestria Hunter and Jean Drummond. This is one of the many activities that the Debutantes will participate in.

--Photo by Camera Masters

I wish to take this opportunity to thank the people in Seaside, Republicans, Democrats and Independent voters without any party affiliation, for the vore of confidence in Tuesday's election. The vote totals have made my family and me feel very humble. I will do my level best to continue to be worthy of this support.

Law Extends Veterans' Benefits

The Veterans Housing Act of 1970, which the President signed into law recently, updates veterans benefits "to bring them more into line with the realities of today's housing situation," according to Senator Alan Cranston, chairman of the Veterans Affairs Subcommittee and author of the Act's major provisions.

The new law for the first time extends veterans' guaranteed and direct loan benefits beyond conventional housing to include mobile homes and condominiums.

It also provides for the refinancing of existing mortgage loans, does away with a loan fee required of post-Korean veterans, which veterans of other wars didn't have to pay and eliminates all deadlines for home loan eligibility.

"These deadlines have been a particular source of anxiety in times like the present when credit is tight and a veteran's time could run out while he was vainly trying to get financing," Cranston said. He noted that other provisions of the bill also are intended "to ease conditions for the returning veterans who are coming back to civilian life at a time of high interest rates and high-priced housing."

The Act, which passed the Senate as S. 3656 and was substituted for the House-passed HR 16710, went into effect October 26, the day the President signed it, except for the section dealing with mobile homes. That goes into operation 60 days from that date.

The major provisions of the Act say that a veteran can get a direct or guaranteed loan of up to $10,000 on a mobile home, if he is going to use it as a permanent dwelling, plus another $5,000 for land on which to place it. He can also borrow extra sums for necessary site improvements such as septic tanks and driveways. Total loans generally can run as high as $17,500 and for as long as 15 years.

In an unusual feature, the veteran's full home loan entitlement is restored to him for use in purchasing a conventional home if he later sells his mobile home to a buyer acceptable to the Veterans Administration.

"This restoration feature does not exist under the regular VA loan guaranty," Cranston pointed out. "We included it in this case because the basic purpose of the mobile home program is to provide transitional housing to a veteran who is unable to afford current financing terms for regular houses. This gives flexibility to the veteran who subsequently wants to move into a conventional home; he doesn't have to be locked in for 12 or 15 years *until his mobile home is paid off.*"

Condominium one-family residential units are brought under the VA program for the first time; they are already covered under the FHA program.

"Condominium apartments have come into greater supply in recent years," Cranston noted. "The trend probably reflects a reaction against the high cost of buying and maintaining individual homes and long distance commuting to the central city."

A veteran now will be able to use his loan guaranty eligibility to refinance an existing mortgage on his home or farm residence. The new law also provides that the veteran may pay points demanded by a lender, a universal practice in refinancing.

"This provision will be of special help to veterans who aquired a conventional loan which permits them to refinance," Cranston noted.

A requirement that the veteran pay a fee of one-half of one percent of the total home loan has been eliminated. That requirement went into effect after the Korean War.

Finally, the new law does away with all expiration dates by which veterans must use their guaranteed or direct home loan entitlements or lose them. At the same time, it restores to more than 10,300,000 veterans of World War II and Korea unused home loan benefits which already have expired. (The deadline for World War II veterans was last July 25.)

Only the mobile home loan program retains an expiration date. Under the Act, the VA's authority to grant new mobile home loans ends July 1, 1975, unless there was a prior commitment.

Localite Is on Ship

Navy Seaman Eddie K. McComas, son of Mr. and Mrs. Clovis E. McComas of Marina, is serving aboard the destroyer USS Bausell in the Western Pacific.

INCREASE

During the past fiscal year, 451,719 vets, a 28 percent increase, were counseled on VA benefits at Veterans Assistance Centers.

stages without even the council members aware of the transaction. This had been accomplished by the honorable Mayor himself. Another one of the unapproved doings was the Mayor taking upon himself to go to San Francisco without the knowledge of the council members and telling the Postal Authorities where he personally wanted Seaside's new Post Office built. Believe me, it was not to be on Broadway! Why not Broadway-is it too close to the minorities section of town and some people don't want to contaminate yourself?

Citizens of Seaside these are just some of the indiscreet facts pertaining to our Mayor of Seaside. Now, you tell me who is cooperating with whom-the Mayor or his council? Who's fooling who? Let us citizens of Seaside reconsider the speech given by Senator-elect John Tunney. He stated that even though the Republican party sent the President of USA out to campaign for them and to spread unthruth about anarchy and some of the canidates of the Democratic party. The people disregarded it and voted for the persons they knew were the best qualified; he said that not even the President could tell Californians how to vote! So let's use this same parable, let's not let a few rabble-rousers in Seaside tell us we need a new recall election, to get rid of a new city council. We intend to keep them! I would say they are doing a fine job, so let's back them up.

Betty

NOTICE INVITING BIDS

NOTICE IS HEREBY GIVEN that the City of Seaside, County of Monterey, State of California, hereby invites sealed proposals or bids for the following work to be done according to plans and specifications on file, adopted therefore, to-wit:

UNDERGROUND UTILITY DISTRICT #2 (GATEWAY)

Proposals for the above mentioned work will be received by the City of Seaside, County of Monterey, State of California, until 10:00 a.m. on December 3, 1970, at the office of the City Clerk at the City Hall, 440 Harcourt Avenue, Seaside, California, at which time all bids will be publicly opened and read aloud by the City Clerk who shall report the results of the bidding to the City Council of said City for its consideration on December 3, 1970, at 8:00 p.m. at the meeting room of said City Council, City Hall, Seaside, California.

The City of Seaside reserves the right to reject any or all proposals and to waive any informality in proposals received.

Each bid shall be in accordance with the plans and specifications adopted therefore, submitted on the proposal form furnished and accompanied by a certified or cashier's check or bidder's bond made payable to the City of Seaside, for an amount equal to at least ten per cent (10%) of the amount bid, such guaranty to be forfeited should the bidder to whom the contract is awarded fail to enter into the contract within ten (10) days after notification of the award of contract to the bidder.

Said plans and specifications are now on file in the office of said City Clerk and may be secured from that office by payment of five dollars ($5.00), a refund of five dollars ($5.00) will be made upon the return of said plans and specifications in good condition within ten (10) days after the award of the contract.

All wage scales shall be in accordance with AGC agreements and trade union agreements.

By order of the City Council of the City Counlic of the City of Seaside, Monterey County, California.

GRADUATE – Airman Jesus A. Escoto, son of Mr. and Mrs. Jose A. Escoto of Salinas, has completed basic training at Lackland AFB, Texas. He has been assigned to Chanute AFB, Illinois, for training in the civil engineering mechanical and electrical field. Airman Escoto is a 1969 graduate of Alisal High School.

Questions And Answers

Q. Is a woman who draws VA benefits as a widow of a veteran entitled to an extra $50 allowance if she becomes a patient in a nursing home?

A. Yes.

Q. My husband was killed during the Korean Conflict and I receive Dependency and Indemnity Compensation (DIC) from the VA. Does recent legislation increase payments for our children?

A. Legislation effective January 1, 1970 provides an increase in payments to many widows with children, but the increase is payable only to widows whose husbands lost their lives in or as a result of military service. You may request this increased benefit at the nearest VA office.

Q. Will my husband's insurance premiums be covered under the Soldiers and Sailors Civil Relief Act when he enters military service?

A. Yes, up to $10,000, provided he applies and the policy was in effect under premium-paying conditions for at least 180 days prior to his entrance into active service.

Q. I receive VA compensation for myself, wife and son. My son, who is handicapped and unable to care for himself, will reach 18 years of age soon. Will I continue to receive benefits for him?

A. The VA will continue to provide benefits for the child if it is determined that he became permanently incapable of self-support prior to his 18th birthday and if he remains unmarried. Send a medical report from your family physician describing your son's present condition to the nearest VA office.

Why Rates Are Rising

Auto insurance premiums are a direct reflection of the costs involved in the payment of insurance claims.

Here are some of the elements that push claims costs upward:

* More auto accidents.
* The fragility of cars.
* Higher hospital and medical costs.
* Growing traffic congestion.
* More youthful drivers.
* More 'muscle-cars'.
* Drinking and drugs.

Medical costs are a major factor in the costly bodily injury claims. Doctors' fees are currently rising at the rate of six percent a year and hospital costs at the rate of ten percent to fifteen percent a year.

Damage repair costs are now exhausting two-thirds of the auto insurance premium.

Graduates

Marine Captain Thomas P. Mulkerin, husband of the former Miss Dolores K. Sherlock of Marina, was graduated from the Naval Postgraduate School at Monterey, California.

HERO – Specialist Four Marion Tirado, whose parents, Mr. and Mrs. Ramon Tirado, live in Marina, recently was awarded Bronze Star Medal with "V" for heroism. His action, which included obtaining ammunition for his unit, prevented his team from being overrun and caused Viet Cong to retreat without inflicting single friendly casualty. Tirado is 1969 graduate of Seaside High School.

Obituaries

POEM

The following poem was composed by Captain Francisco Lizama, a commanding officer in the 4th Brigade, Fort Ord. The words are so meaningful that this writer would like to share them with out readers.

THOUGHTS FOR THE DAY...I Ask Myself...

Is anyone much happier because I pass his way?
Does anyone remember that I spoke to him today?

Now this day is over and its toiling time is through
Is there anyone to say a kindly word for you?

Did I earn this day or lose it? Was it well or poorly spent?
Did I leave a trail of friendship? Or a scar of discontent?

As I close my eyes in slumber, do I think God would say:
"You have earned one more tomorrow by the work you did today."

ANNUAL QUEEN BALL

The Annual Queen Ball, sponsored by Past Exalted Rulers Council 119, I.B.P.O.E.W. Central California, was held this year in the San Joaquin Power Club, Fresno, on October 17.

Linda Joyce Hobson of Seaside represented the local council. In competition, she was 2nd runner up, having 1,424 votes. Linda is 20 years old and the daughter of Mr. and Mrs. James Hobson of Seaside. She graduated from Monterey High School and attended MPC. She is presently a secretary at the Naval Postgraduate School in Monterey.

Winning Queen was Miss Tulare; 1st runner up Miss Bakersfield and 3rd runner up Miss Fresno.

GOOD READING PROMISED

"Stop Your Crying--Start Trying," is the title of a book that should be on the market before the end of this year. Ernest E. Stone of Staten Island, N.Y., is the author. He is an independent thinker and tells it like he thinks it should be told.

Stone, brother of Major Mattye L. Stone of Monterey and his attractive and intelligent wife, Amy, were guests of Major Stone for more than a month this past summer. Now that they are back home in New York, they cannot forget the marvelous hospitality shown by their many wonderful friends in California and would like to express their graditude to all that were instrumental in making their stay as enjoyable as it was.

BEAUTICIAN HOLDS DEMOSTRATION

Mothers and daughters of Fort Ord had an opportunity to be let in on the very latest in beauty fashions from November 3 through November 7. During that period, the Main Exchange had the services of Susan Hutchins, who brought "the art of make-up," an engrossing demonstration of the latest trends in fashions and beauty there.

Miss Hutchins provided a personalized make-up service by analyzing complexions and prescribing counsel for skin care, make-up and color accents. During her stay, the make-up artist was also available for appearances at wives' clubs, teen clubs and other on-post groups holding scheduled meetings.

OPEN HOUSE

The Youth Science Center had open house on Sunday, November 1, from 11 a.m. to 4 p.m. The Science Center is the nearest thing to a zoo in Monterey County.

There is an animal library for handling and borrowing animals, which offers educational and just plain fun possibilities. The center is located five miles south of Spreckels on River Road. Light refreshments were available at a nomonal cost.

OWC HAS BUSY AGENDA

The Fort Ord Officers Wives Club (OWC) has two big items on its agenda for the month of November. OWC is conducting a canned goods drive for the Salvation Army Christmas Basket Project.

A container to receive the canned goods will be located in the lobby of the Ford Ord Officers Club through November 15. All post personnel are asked to contribute.

ANCIENT

Among its extensive holdings, UC-Berkeley's East Asiatic Library has two Oriental scrolls on vegetable fiber paper which show little sign of deterioration in the more than a thousand years since they were printed.
